New dues structure provides more opportunities for members and for preserving history!

In September the Gastineau Channel Historical Society Board approved a new dues structure (the first adjustment in more than a decade). Expanded levels of membership support a new website and pay portal, as well as the Society’s ability to contribute to history preservation. The revised dues also allow the Society to recognize our exceptional contributors. New dues will appear on the notice members will receive in early December. OR, JOIN NOW FOR 2021!
